\*All payments must be made before you can receive your race credentials. Pricing includes Night Skiing ticket.

\*All racers must sign in and receive an assigned bib #.

\*All racers must complete the WV 2021 waiver. Please include team name on your waiver form!!

• Scoring is based on the NASTAR handicap system for team racing. The pacesetter's performance establishes the par time for each race day. For more info on the NASTAR scoring system check out [www.nastar.com](http://www.nastar.com) • Although all 7 team members are encouraged to compete each week, only the best five scores will be counted. At least one male and one female must score for each team or the best four scores will be counted. • Prior to the race, courses are open for inspection only. Running the gates is NOT permitted at this time. Please be aware of all course activity when inspecting or slipping. • Racers over the age of seventy are offered first tracks for their first run. • Racers who suffer course interference should promptly request a re-run. Cuts are allowed with re-run pass. • All races permit the option of two runs, however only one finish is required (except for Finals). Dual courses have a separate par time for each course, therefore a second run must be taken on the alternate course. Remember, your time may be faster on one course but your handicap may be higher on the other due to the difference in par. • Team captains are responsible to relay communications to their team members. • TEAM PAYMENTS must be made in full by 3rd week or NO POINTS will be scored for your team. • Roster changes are limited to skier injury. The team captain must discuss any proposed roster changes with the race committee. Once a person has raced for a particular team that person has a commitment to that roster. If a listed racer has never competed in a single race, a new racer may adopt the available spot on the roster. Again, this change must be verified, preferably pre-race. • Court of Appeals: Protocol for the airing of grievances is as follows...The designated team captain will present their case to one of the race officials, Eddie MacLennan or Ray Hoyt. The officials will discuss and decide...That's it!
